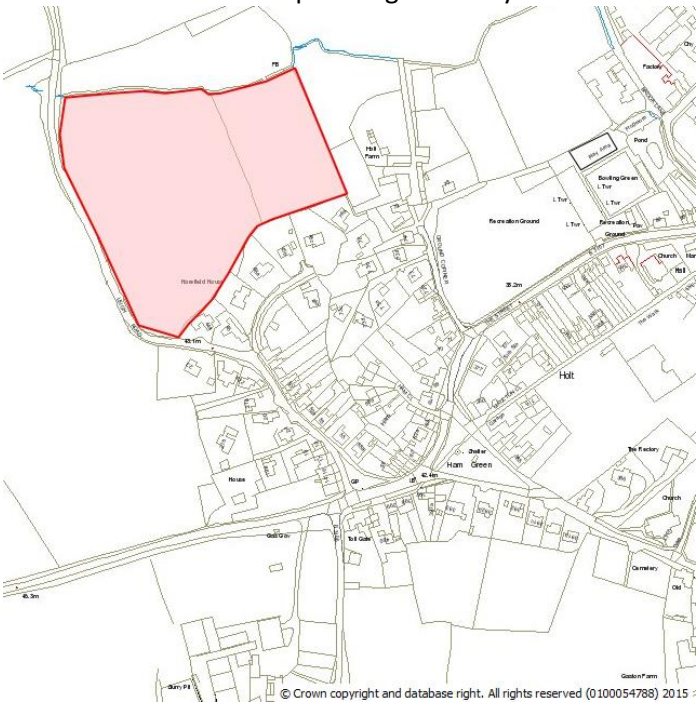
POTENTIAL DEVELOPMENT – LEIGH ROAD – A NOTE FROM THE PARISH COUNCIL


The fields shown on the map were acquired some time ago by Landhold Capital as a speculative development opportunity. Some residents have noticed a website offering plots on these fields for sale in South Africa (http://www.sjcapitalgroup.com/index.html). The Council have contacted Landhold who have confirmed that SJCapital is associated with them and they use this method to raise funds to support the acquisition of planning permission on the site. At the moment, we believe that this site remains outside the development plans for this part of Wiltshire however, the Parish Council is not the planning authority.
